## John, et al:

The groundwater sampling for DAS R343117 has been delayed. The remaining samples under this case are now planned to be collected this Thursday and Friday (Feb 6-7). We will plan to ship the samples collected Thursday to arrive at OASQA on Friday. We will hold any samples collected Friday and ship them on the following Monday, unless the lab prefers that we ship for Saturday delivery.

## Dennis et al:

Please send the samples forR34317-CT6665 to our EPA Region 3 Laboratory here at the

Environmental Science Center, Ft. Meade, Md. and notify the Region 3 Laboratory each day that samples are shipped. The info required is the DAS #, the number of samples for which analyses, and the FedEx Tracking Numbers. This can be done by phone or e-mail. Contact info:
